

Minute of Meeting held on 15/06/2022 at Prof. Oluwatope's office

Attendance

Dr. Ogunyemi: Virtual

Mr. Achukwu: Virtual

Prof. Oluwatope: Physical

Dr. Bakare: Physical

Dr. Diyaolu: Physical (took minutes)

Dr. Awoyelu: Apology for absence

Mr. Ayoola: Apology for absence

The meeting started around 12:45 pm

The PI welcomed members to the meeting and shared two documents for members to discuss. The first document contained the proposed sampling techniques from the data expert while the second is a 10 paged questionnaire designed for data collection.

The sampling techniques were reviewed and suggestions made for improvement. The Research Advisor was used for the sampling. Other organization sites like the Bureau of Statistics were checked but with no information. There was a suggestion to contact the national population commission or use the Selvin's formula for the sample size.

Members supported the inclusion of local textile designers in the study. Mr. Achukwu was consulted on data collection in the norther parts of the country with a clause on security consciousness.

Members observed the need to move faster on the design of the questionnaire and suggested every member should study the questionnaire and meet again on Friday by 11am for a well-articulated one.

Dr. Ogunyemi moved motion for adjournment of the meeting while Dr. Bakare seconded.

The meeting ended around 2:00 pm
